CAREER OBJECTIVE

Goal driven software developer with experience in C#, Asp.net, SQL database management, Javascript and React.js. Passionate about developing robust, scalable and high-quality software that meets the needs of users and drives business growth. A collaborative team player seeking an environment to contribute meaningfully to the growth of the organization. Committed to continuous learning and professional growth.

WORK EXPERIENCE

Senior International Limited

May 2023 – August 2023

FullStack Developer (Contract/Internship)

- Improved performance for applications by optimizing queries using Entity framework, which led to a 10% increase in data processing efficiency
- Collaborated with a team of 6 to develop a website for a client using HTML, CSS, JavaScript and also build the backend using C#/ASP.NET.
- Successfully implemented frontend templates in the Umbraco CMS platform, ensuring seamless integration with the backend.
- Designed and implemented an ASP.NET Web API for efficient collection and management of user data.
- Created and managed Restful web APIs for seamless server-client communication, resulting in a 25% decrease in error rate and a 10% improvement in response times.
- Enhanced the user experience of different client websites by implementing new designs and modifying existing designs on the frontend using HTML, CSS, Javascript, and introducing new components within the Umbraco CMS platform.

The Bulb Africa

August 2022 – April 2023

.Net Backend Developer (Training/Internship)

- Built the API for a Hospital staff management project using C#/Asp.Net to help improve staff data accuracy and efficient management of employee information.
- Developed a help desk API using ASP.NET Core and C#, to help reduce resolution time for support tickets.
- Designed a full E-Commerce web-application using HTML, CSS, Javascript, and React.Js for the client-side and C#/ASP.NET for the server side.
- Collaborated with team members to identify, troubleshoot, and resolve complex software bugs.
- Researched and implemented new tools and technologies to improve software development processes and team productivity.

Finosell

September 2021 – March 2022

Software Developer (Trainee)

- Developed and maintained web applications using HTML, CSS and Javascript.
- Implemented UI/UX design mockups into functional web interfaces, ensuring an accurate representation of intended design.
- Integrated web interfaces with backend systems and APIs

Tech-So-Far

January 2021 – May 2021

IT Support (Intern)

- Provided technical support to resolve computer system, software and hardware issues for clients.
- Improved network efficiency by resolving internet connectivity problems using troubleshooting skills.
- Managed regular maintenance duties which included software and hardware installation and upgrades.
- Worked collaboratively with team members to identify and resolve technical problems, and provided support to colleagues on technical issues.

Technical Writer

- Wrote daily articles on topics including but not limited to: tech trends, tourism, and automobiles which resulted in a 20% increase in website traffic within my first 3 months.
- Participated in the 100k words a month challenge, resulting in a significant increase in revenue generated from the company's websites.
- Conducted thorough research on emerging technology trends and releases to create informative content.
- Wrote comprehensive how-to and buying guides for gadgets and technology to aid and guide readers in their purchases.
